Dear Friends and Patients,

Because of you, I have been successful in Skippack for 34 years. I am very grateful and humbled by your support. Thank you.

I have been searching for three years for a qualified and caring Doctor. Rest assured that I have found him in Dr. Joseph Toth. As of Sept 1<sup>st</sup> he will be taking over daily operations. All of the current staff are remaining and will continue to provide you the high quality of service that you deserve.

Dear Patients, I am Dr. Joseph Toth and I have been successfully practicing Optometry the past 11 years in San Diego. I decided to move home to Pennsylvania since this is the State that I grew up and went to school. I earned my Optometry degree at the Pennsylvania College of Optometry in 2007. Moving back means I will be able to stay close to family which is very important to me. Much like Dr. Montague, it took me a while to find a community that would be a great fit for me and my family and I was extremely excited when I was presented the opportunity to take over Skippack Vision. I can see the care that Dr. Montague and his team have with his patients and rest assured I will continue with the same attention and commitment. I look forward to seeing you soon.

I will be reviewing all patient records with Dr. Toth so there will be a continuity of care. On a very limited basis I will continue to see patients. I sincerely hope that you continue to support Dr. Toth as you have supported me during this transition.

I look forward to seeing you driving my old jaguar around town.

With Grateful Appreciation,

Dr. James Montague
